Jessica Clarke Dennis

Teacher’s Assistant - Early Intervention at INSTITUTE FOR CHILD DEVELOPMENT
United States

Summary

I'm an operations and administration professional with 15+ years of combined experience across healthcare offices, medical billing, and small business ownership. Most recently, I spent five years building and running Crow & Lilac, a botanicals business where I handled everything from inventory and fulfillment to bookkeeping, vendor relationships, and customer care. Before that, I spent several years inside wellness clinics as an office manager and billing coordinator — verifying insurance, submitting claims, managing patient records under HIPAA, and keeping the front desk running smoothly. I also ran a freelance medical billing practice supporting multiple acupuncturists and chiropractors. What ties it all together: I like making complicated processes calm and organized. I'm at my best when I'm the reliable person between customers, vendors, and internal teams — the one who writes the SOP, answers the email, and actually closes the loop. I'm now looking for my next role in operations, office management, medical billing, customer success, or anywhere administrative excellence and problem-solving make a real difference. Open to remote, hybrid, and San Diego-area opportunities. Always happy to connect — jmclarke826@gmail.com

Experience

Crow & Lilac

Owner & Opperations
January 2020 - Present (6 years 4 months)
San Diego, CA

Founded and ran an independent retail + wholesale botanicals business end-to-end — P&L, forecasting, vendor negotiation, and all legal and tax filings. Built the SOPs that kept order processing, inventory, and customer communication running smoothly across in-store, online, and wholesale channels.

Handled every customer interaction personally — from first inquiry through fulfillment and post-purchase follow-up — which kept retention high and made feedback easy to act on.
Managed payments, invoicing, and reconciliation through Square POS and integrated tools; prepared clean records for annual tax filings.
Ran marketing and customer acquisition across in-store and online, building a loyal base through a consistent, personal brand experience.

JClarke Claims
Founder & Owner
January 2014 - December 2016 (3 years)
San Diego, CA

Founded and ran JClarke Claims, an independent medical billing practice serving up to 8 wellness providers — acupuncturists and chiropractors across California.
Handled the full revenue cycle: insurance verification, benefits interpretation, claims submission, AR follow-up, and denial appeals.
Submitted and tracked claims through direct insurance portals (Blue Shield, Medicare, Medi-Cal, and private carriers).
Reduced client denial rates and sped up reimbursement by tightening the link between chart documentation and billing codes, and by following every claim through to payment.
Grew the business entirely by word-of-mouth referrals from existing clients — the clearest signal I could ask for that providers trusted me with their revenue.
Maintained full HIPAA compliance across all records and communications.

Thive Wellness
Office Manager & Billing Coordinator
January 2013 - December 2015 (3 years)
San Diego, CA

Managed front desk, scheduling, and patient intake for a multi-practitioner wellness clinic.
Handled insurance verifications, claim submissions, and payment posting; reconciled accounts and resolved discrepancies.
Maintained HIPAA-compliant records and served as the primary liaison between patients, providers, and insurance companies.
Streamlined office systems and documentation, improving accuracy and day-to-day efficiency.

AcuSport Health Center

Office Manager
June 2011 - June 2013 (2 years 1 month)
San Diego, CA

Managed front desk operations, patient flow, and scheduling.
Kept digital and physical records organized and compliant with patient privacy regulations.
Supported insurance verification and basic billing in coordination with providers.

Greenpeace
Field Canvasser
January 2010 - October 2010 (10 months)
San Diego, CA

Conducted public education and grassroots fundraising outreach for a national environmental nonprofit during my relocation to San Diego. Built comfort with direct community engagement, quick rapport-building, and resilient day-to-day communication with diverse audiences.

St. Timothy's School
Educational Aide
January 2008 - December 2009 (2 years)
Cohoes, NY

Dedicated one-on-one aide for a 13-year-old student on the autism spectrum in a self-contained classroom.
Stepped in to lead the full classroom after the lead teacher's mid-year departure — planned daily curriculum, kept classroom structure, and ensured continuity of learning until a credentialed replacement was hired.
Partnered closely with parents, therapists, and school administrators to adapt lesson plans and communicate student progress.

INSTITUTE FOR CHILD DEVELOPMENT
Teacher's Assistant - Early Intervention
January 2007 - January 2008 (1 year 1 month)
Binghamton, NY

Provided one-on-one and small-group instruction to children ages 2–5 on the autism spectrum as part of a multidisciplinary early-intervention team. Used ABA techniques.
Collected and logged behavioral and developmental data during sessions to track progress and inform clinicians.
Applied my Psychology training in a real clinical setting — practicing patient, structured communication with students, families, and staff.

Education

Binghamton University

Bachelor of Science - BS, PSYCHOLOGY · (September 2005 - June 2007)

Hudson Valley Community College

Associate's Degree, Liberal Arts and Sciences/Liberal Studies · (August 2003 - June 2005)
